MARCH FOR A FAIRER EUROPE FOR WORKERS

Friday 26 April, Place du Luxembourg, Brussels, at 10:30

The European elections May 23-26 are the most important for decades.

We need a better and more social Europe, not less Europe, a Europe with democratic values.

The far-right, anti-Europeans and nationalists are on the rise in many countries.

The European Parliament to be elected in May can either join a race to the bottom with tax and wage competition, and social dumping

or it can make the EU a better place to live and work.

European trade unions march in Brussels on April 26 for a fairer Europe for workers, for a Europe that works for democracy and social justice, for quality jobs and higher wages and pensions, for just transitions to a low-carbon and digital future.

We march to show that nationalism, far-right and anti-Europeans parties offer no solution to the problems facing us today.

→ We march for social progress in Europe, better pay and better working and living conditions in Europe.

→ We march for a better and more social Europe – not less Europe.

→ Vote in May for a fairer Europe for workers!

No to austerity, no to social dumping, no to extreme-right – yes to democracy, yes social justice and just transitions, yes to quality jobs and higher wages.
